Our Top Doctors list is run through a peer review survey. All practicing and active MDs, DOs, DPMs, ODs in Marin and San Francisco Counties in California were able to log on and vote for their peers. They were able to vote for up to five doctors per specialty. They were not able to vote for themselves. Voting was open for 8 weeks. The doctors with the most votes within their specialties, were the ones chosen as Top Doctors for this year. The finalized Top Doctors list has two layers of fact checking. It was checked first with the Department of Consumer Affairs ensuring all nominees have active and practicing licenses with no current legal infractions or issues. Then each name was fact checked with online research as well as some individual phone calls verifying names, specialties, credentials and practice information.
